

FOR IMMEDIATE RELEASE:

PriceCompete Appoints New CEO

ATLANTA, GEORGIA January 1, 2004 - PriceCompete, a provider of Oracle and IBM software, content management and compliance solutions, and Information Technology staffing and services, is pleased to announce the appointment of Tinie (pronounced T-knee) Krige as Chief Executive Officer. Krige, a South African native, has over 30 years experience in Information Technology with NCR, IBM, and Unisys, as well as holding key executive positions at several technology services organizations in the United States.

"Mr. Krige is a great asset to the PriceCompete team. His vast IT experience, coupled with his outstanding strategic insight and business leadership proves to be a great fit for expanding the growth and scope of our company," stated Arnaud Viviers, President and founder of PriceCompete.

Viviers, also originally from South Africa, will continue as President with a steadfast focus on strategic sales and business partner opportunities.

In addition to his extensive experience, Krige has a Bachelors Degree in Economics and Business Economics from RAU University in Johannesburg, South Africa; an MBA in Organizational Design & Negotiation from School for Business Leadership (affiliated with Harvard Business School) in Pretoria, South Africa; and a Law Degree in Intellectual Property & Confidentiality from the University of South Africa. Krige was a founding member of South Africa's ISDN forum, and a member of the Institute Of Marketing Management.

"PriceCompete has charted a course in the right market sector, at the right time." said Krige. "With the combination of best-of-breed technology partners, a talented and customer-centric team, and sophisticated technology solutions, PriceCompete provides customers with a secure way to manage their business content cost-effectively while reducing corporate exposure. I believe this gives the company unlimited potential to serve a vital market need and grow rapidly."

PriceCompete focuses on delivering a comprehensive solution to address the ever-growing challenges of cohesively managing, leveraging, protecting, and enforcing compliance of enterprise business information.
